Shell collection

Shell collection is the newest line by Decosil. A simple but brilliant idea for wonderful Easter Eggs creations with basrelief and high-relief decorations.
The result is an egg which seems hand-carved, but... the entire process is really simple.

Thermoformed moulds

ALL FORMS OF SHELL COLLECTION have a corresponding THERMOFORMED.

To use the silicone moulds of SHELL COLLECTION (Bell, Pine, Sphere, Egg) is necessary to combine the thermoformed articles, consisting of 2 rigid parts needed to sustain the shells of silicone.

The thermoformed is an article in itself and as such must be purchased separately.

It is also interchangeable, so you can use all the shells of the same shape.

The Shell Line moulds are an exclusive patent Decosil.
